PROFILE

MCA student with experience in software development, cloud technologies, and deployment practices. Skilled in Java, SQL, Linux, Git, and AWS, with strong problem-solving abilities and a solid foundation in DSA, OOP, and DBMS. Interested in Software Engineering, Cloud, DevOps, and Infrastructure roles.

EDUCATION

Master of Computer Applications (MCA) | *JECRC University, Jaipur* | ***8.15 CGPA*** 2024 – 2026

Bachelor of Science (Computer Science) | *Mumbai University College, Mumbai* | ***7.9 CGPA*** 2021 – 2024

WORK EXPERIENCE

AWS Cloud Intern - *F13 Technologies* *Jan 2026 – May 2026*

- Built and deployed cloud-based solutions using AWS services including EC2, S3, IAM, VPC, DynamoDB, and Cognito.
- Used AWS services like EC2, S3, IAM, VPC, SNS, Cognito and Dynamo DB for project work, gaining experience in using these services for cloud deployments.
- Collaborated with a team to build and deploy cloud-based solutions, enhancing practical experience in real-world environments.

Project Management Intern - *GYANYODHA EDUCATION SOLUTIONS* *Oct 2025 – Dec 2025*

- Conducted market research and competitor analysis across 10+ products.
- Collaborated with cross-functional teams and prepared PRDs, reports, and presentations.
- Suggested website and product enhancement ideas based on market research, competitor analysis, and user feedback.

TECHNICAL PROJECTS

WEBCHAT *Mar 2026*

- Designed and developed a scalable real-time chat application using AWS Lambda, DynamoDB, Cognito, and API Gateway, supporting authentication, messaging, and serverless backend processing.
- Implemented secure user authentication, serverless backend processing, and real-time messaging for 100+ users.

RESUME PARSER & SKILL MATCHER FOR RECRUITERS *Feb 2026*

- Developed a serverless resume screening system on AWS using Lambda, Textract, Comprehend, DynamoDB, and API Gateway.
- Automated resume parsing for 100+ resumes and achieved 80%+ matching accuracy, reducing manual screening effort by ~70%.

FEEL IT !! *Dec 2025*

- Developed "Feel It!", an Android game that uses vibration patterns as the primary gameplay mechanic, creating a unique screen-free experience.
- Implemented random vibration sequence generation and touch-based pattern validation to challenge players' memory and accuracy.
- Designed and optimized haptic feedback, touch event handling, and game logic for smooth, responsive gameplay.

SKILLS

- **Languages**: Java, Python, JavaScript, SQL (MySQL), Bash Scripting
- **Core Concepts**: DSA, OOP, DBMS, Operating Systems, Computer Networks
- **Tools & Technologies**: Linux, Git, GitHub, AWS, Docker, CI/CD, REST APIs, Android Studio, VS Code

CERTIFICATES & ACHIEVEMENTS

- **TECHNICAL ACHIEVEMENTS:** Solved 80+ LeetCode problems in Java; scored 90/100 in AMCAT Automata and 68/100 in Quantitative Ability. *Present*
- **CERTIFICATIONS**: Completed 6 AWS Cloud Accreditation Certifications and Kubernetes for Absolute Beginners through hands-on labs. *June 2026*
- **COMPETITION**: Secured 1st place in the TechMaze Competition at JECRC University. *Jan 2026*

Nov 2025
